## MISS LYNSEY'S YEAR 7 2022

Week Three already and we have made a strong start to the final term of the year. Ancient Greece being the most interesting topic by far based on students' opinions. Learning about the difference between Sparta and Athens has been thought-provoking to say the least. Jack Kelly, Jack Leslie, Surya and Montana all agree that Sparta would have been the best place to live mainly because they were expected to learn to fight and protect themselves in Sparta from a very young age. Women were also treated as equals in Sparta and all the students agreed this was the way it should be. Athenian women were unable to have a life and were not allowed to attend school. Funnily enough, some of my students liked that part. Athenian women were not even allowed to run a household. Rich class discussion proved that all students would never live in Athens mainly because women were far from valued. In the coming weeks we look forward to learning more about Greek mythology and leadership styles in Greece....
